

Jnetics on Campus

FAQs

Who can take part in Jnetics on Campus University Screening Week?

Anyone who is a Jewish student in the UK, either post graduate or undergraduate, who is over 16 and has at least 1 Jewish grandparent.

Do I need to pre-register for testing during University Screening Week?

YES. You cannot get tested if you do not sign up online in advance.

When is the registration deadline and what happens if I miss it?

The deadline for registration is Monday 15th November, 5pm. Unfortunately, you will not be able to get screened if you miss the registration deadline.

When will I receive my screening pack?

You should receive your pack any time from when you register until 3-4 days before your appointment. If you haven't received your pack 3 days before your appointment you MUST urgently email hello@geneius.org to arrange a replacement.

How will the video consultation work?

You will be sent a zoom link in your confirmation email after signing up. After logging into zoom at the time of your appointment you will be moved to a breakout room to speak one to one with a trained screening advisor

How long will the screening appointment take?

The appointment will take 20-30 minutes. This includes time to provide your saliva sample.

How do I send the saliva kit back to Jnetics?

You will be provided with a stamped addressed envelope to return your sample to Jnetics

When do I have to return my saliva kit to Jnetics by?

You must return your sample back to Jnetics with in 3 days of your screening, so that your sample arrives at Jnetics no later than 1 week after your appointment. This is so that it can be sent to the lab with the other samples taken on the day you were screened.

What if my kit returns late to Jnetics?

If you return your kit late to Jnetics, you risk relaying your results. If Jnetics have not received your kit with in 2 weeks of your appointment, they will assume you do not want to go ahead with screening. Consequently, you will incur a late cancellation charge of £75, for which you will be invoiced.

When will I receive my results?

You should expect to receive your results up to 16 weeks later via email from our NHS dedicated genetic counsellor. Anyone identified as a carrier will receive a follow-up phone call to from the genetic counsellor.
